MONOCHROMATIC OPTIONS
ARTSWORLD GUIDELINES
Two different logos have been designed for monochromatic usage.
Thickness of the lines has been adjusted in both cases to reflect the visual impact of the variety of colours in the colour logo.
On a white background the first line from the top is thin.
On a black background the first line from the top is thick.
Although Artsworld doesn't use any other colour than black for monochromatic usage, when the logo is used within another organisation's monochromatic design, use of a different colour is permitted.
